The schools of more than 168 million students around the world have been closed, for almost a year. Two-thirds of the countries where schools have closed totally or partially are in Latin America and the Caribbean. At NPH Peru our children are still receiving lessons via distance learning. It has been another difficult year here in Peru, and NPH continues to be a beacon of hope for children in vulnerable situations.

This year we were able to start the *OneFamily* programme, which successfully reintegrates children with extended family, while providing ongoing support. It has been a blessing to see children reunited with family members who want to care for them. The children continue as part of our family, as we provide them with financial and emotional support.

Thanks to your support, NPH Peru continues to build a better future and new opportunities for our children, adolescents and young people in vulnerable situations. You represent a very important part of our international family. As the Founder of NPH, Father William Wasson once said, "You are only one person, but for a child you can be the whole world".

We appreciate you and your support. Merry Christmas!

Thank you and God bless you,
